WISHBONE

design by: busk+hertzog

busk+hertzog

Wishbone is the work of the prize-winning Danish design duo busk+hertzog. Designs by Flemming Busk and Stephan B. Hertzog are characterised by pure, uncluttered lines and a simple, direct idiom. Believing that anything decorative should also have a function, busk+hertzog elegantly combines practicality with exclusive design.

Since the company was founded in 2000, busk+hertzog designs have won countless awards both in Denmark and abroad. They can be seen all over the world – everywhere from major international airports to the players' lounge of Chelsea Football Club. Several busk+hertzog designs are on permanent display at the Danish Museum of Art and Design, and 18 of their chairs were included at the reopening of the Museum of Modern Art in New York in 2004.

NOMINEE

The Red Dot Design Award is one of the largest international design competitions in the world, with over 10,000 submissions from 60 countries. The awards go to products that feature sublime quality and innovative design, and is regarded worldwide as a substantial indicator of quality and as proof that a winner can be numbered among the contemporary design elite. The international jury consists of well-known designers and design experts from around the world, who judge the designs on criteria that include innovation, function and quality.

The products that win these awards are exhibited at the red dot design museums in Germany and Singapore, which are visited by more than 120,000 people every year.

WISHBONE What is your dream?

If Wishbone could speak, it would ask you what you want to wish for. busk+hertzog has crafted an award-winning hall stand inspired by the shape of a wishbone.

Wishbone reminds you that you live in a world in which dreams can turn into reality.
