

Elegance Dispenser 717/718

Touch-free
For liquid soap or disinfectant
2-year warranty

DAN DRYER® ELEGANCE dispensers for disinfectant and fluid soap are made of shock-proof plastic and boast a classic, easy-to-clean design. A viewing slit on the front makes it easy to check when the dispenser needs re-filling.

Application

For re-fill, the dispenser housing is opened by means of the special key supplied. The transparent container and the dosing nozzle may easily be removed and rinsed clean prior to re-fill. The container holds 1.1 l fluid soap/disinfectant.

Offices and administration, hotels, sports facilities, swimming pools, water parks and public institutions.

Technical data

	Elegance
	Prod. No.: 717/718
Type	Touch-free dispenser for liquid soap or disinfectant
Dimensions	H 235 x W 140 x D 115 mm
Material	Shock-proof plastic
Capacity	1.1 l
Battery operated	4 pcs. 1.5 V Alkaline batteries type AA
Net weight	1kg

Standard colour

White

Installation

Wall-mounting.
 Approx. 30 cm above sink/tabletop.

Activation

The DAN DRYER® ELEGANCE dispensers are touch-free for maximum hygiene. The dispensers are battery-operated and run on 4 pcs. AA-LR6 1.5 V batteries. When the front of the housing is closed, the dispenser is automatically operable. When the housing is opened, the dosage mechanism is deactivated to prevent soap/disinfectant from dripping onto the floor. For dosage, simply hold hands underneath the dispenser. The dispenser will dose when hands are held between 1-8 cm underneath the nozzle. One dosage is 1 ml.
