Ash	Black metal 100304 or gold 100300
Black oak	Black metal 100303 or gold 100305

Technical Drawing

Installation

Installation must be carried out only on a prepared, flat surface by a qualified professional.

- Select and position the hand towel dispenser in the desired location. Measure and mark the positions for the mounting holes.
- Drill holes in the wall. Ensure that the drill bit is suitable for the wall material.
- Insert the wall plugs into the holes.
- Screw the paper towel dispenser into place.

Maintenance

Regular cleaning using water and mild cleaning agents. Chlorine-based or abrasive cleaners or tools are not suitable for cleaning. The product should not be cleaned under running water or exposed to running water during normal use.

Recycling

The product is made of wood or wood veneer. Recycling the products is easy. Wooden waste can be converted into energy by separating it from the metal backplate. The metal parts must be recycled at appropriate waste treatment facilities where the metal is melted and reused.

General Commissioning Instructions

- Ensure that the packaging and its contents have not been damaged.
- Make sure you have received all the products you ordered. Always store and transport the product in its original packaging.
- The product is approved only for its intended use. Failure to follow these instructions voids the warranty and releases the manufacturer from liability.
- The product warranty is 24 months from the date of purchase. For more information about the product, please contact us: info@wuoma.com
